Detox Support

Daily Nutritional Support for Detoxification*

Detox Support Supplementation

Detox Support is a potent daily detoxification supplement containing patented BioFolate®, essential precursors, cofactors, herbal extracts, and amino acids that support the liver and other vital organs involved in the detoxification process.⁴

Over time, exposure to toxins can be detrimental to health and longevity.^{1,2,3} As such, maintaining healthy liver function and the function of organs that detoxify the body is crucial for ridding the body of noxious substances and metabolites.⁴ Read on to learn how Detox Support can help do just that.

Given the importance of proper liver function and other organs that detoxify the body, Detox Support can benefit users in a variety of ways.

The most pertinent research-backed benefits of Detox Support may include:

- Support for healthy liver function and detoxification*
- Support for healthy immune function*
- Provides essential cofactors and patented BioFolate® to support detoxification pathways⁴

How Detox Support Works

Studies show that the plant extracts in Detox Support, such as green tea leaf, milk thistle seed, and pomegranate, contain phytonutrients and compounds that support healthy liver function.^{4,5,6} The liver is a vital organ with many enzymes involved in removing toxic substances from the body. Its primary job is to filter the blood coming from the gastrointestinal (GI) tract before passing it to the rest of the body.

The liver is also responsible for metabolizing chemicals and drugs by changing them into substances that can be safely excreted. Not only does it inactivate or remove toxins that are ingested, but it extracts residues and metabolic waste material from the blood so that they can be excreted by the intestines or kidneys (either via urine or bowel movements).

Studies also show that the essential micronutrients, cofactors, and amino acids found in Detox Support work to support healthy immune function and the activities of key liver enzymes involved in phase I and phase II detoxification pathways.^{47,8,9}

Supplement Facts

Serving Size: 2 Capsules Servings Per Container: 21/63

l	Amount Pe	er Serving	%DV*
Vitamin A (from retinyl palmitate a as beta carotene)	nd 67%	750 mcg RAE	83%
Vitamin C (ascorbic acid)		133 mg	148%
Vitamin D (cholecalciferol)		0.82 mcg	4%
Vitamin E (as d-alpha tocopheryl aci	d succinate)	44.9 mg	299%
Thiamin (as thiamin mononitrate)		10 mg	833%
Riboflavin		5 mg	385%
Niacin (as nicotinic acid and niacinar	nide)	23 mg NE	144%
Vitamin B6 (as pyridoxine HCI)		17 mg	1,000%
Folate (as calcium L-5-		268 mcg DFE	67%
methyltetrahydrofolate) (BioFo	ate®)		
Vitamin B12 (as methylcobalamin)		34 mcg	1,417%
Biotin (as d-biotin)		66 mcg	220%
Pantothenic Acid		33 mg	660%
(as d-calcium pantothenate)			
Zinc (as zinc citrate)		6.5 mg	59%
Selenium (as I-selenomethionine)		50 mcg	91%
Copper (as copper citrate)		650 mcg	72%
Manganese (as manganese citrate)		1.65 mg	72%
Molybdenum		66 mcg	147%
(as molybdenum amino acid ch	elate)		
Artichoke Extract (aerial parts;		167 mg	**
Cynara scolymus; standardized t	o 5% cynarin)		
Watercress Concentrated Extract 4:1		133 mg	**
(whole herb; Nasturtium officing	ale R.)		

Ar	nount Per Serving	%DV*	
L-Taurine	117 mg	**	
Pomegranate Extract	114 mg	**	
(hull; Punica granatum; standardized			
to 40% ellagic acid equivalent)			
Sodium Sulfate	100 mg	**	
N-Acetyl L-Cysteine	67 mg	**	
Decaffeinated Green Tea Extract	56 mg	**	
(leaf; <i>Camellia sinensis</i> ; standardiz	ed to 98%		
polyphenols, 75% catechins, and 4	45% EGCG)		
Milk Thistle Extract (seeds; Silybum	50 mg	**	
<i>marianum</i> ; standardized to 80% si	lymarin)		

Other Ingredients: Hydroxypropyl methylcellulose, microcrystalline cellulose, vegetable magnesium stearate, silica.

BioFolate[®] is a registered trademark of MTC Industries, Inc.

Directions: Take two capsules daily as a dietary supplement or as directed by your healthcare practitioner.

Warning: Excess vitamin A intake may be toxic, may increase the risk of birth defects, and may contribute to osteoporosis. Pregnant women and women who may become pregnant should not exceed 3,000 mcg RAE (10,000 IU) of preformed vitamin A (retinyl palmitate) per day unless directed to do so by a healthcare practitioner.

Caution: If pregnant, nursing, or taking medication, consult your healthcare practitioner before use. Keep out of reach of children.
